

Department/Agency: Biomedical Engineering

Contact: Sean Sweeney

Telephone: 319-431-0014

Address: 208 Engineering Research Facility, Iowa City, IA 52242

Rate of Pay: \$10.00-commensural

Work Schedule: Flexible between 8-5 Monday-Friday

Job Beginning/Ending Dates: Immediate to Ongoing

**Job Title:**

Chemist

**Description:**

NEW NSF-FUNDED RESEARCH: Our research group is looking for a motivated/enthusiastic graduate-level chemist/postdoc work on novel nanoparticles designed to be use in the medical field. This exciting work is set to be an introductory project for a much bigger a potential opportunity for long-term, full-time employment.

**Qualifications:**

Graduate students are strongly encouraged. The ideal candidate will be familiar with inorganic synthesis of nanomaterials (co-condensation methods) and certain characterization methods (dynamic light scattering, BET surface analysis, powder x-ray diffraction, etc.). Please send a resume/CV and your contact information to [sean-sweeney@uiowa.edu](mailto:sean-sweeney@uiowa.edu). For further info: 3194310014
